This is half the encampment. Sometimes they will have 20 plus bikes(Which I believe they use it to deliver drugs) that they work on and they will spread it out on the entire sidewalk. I even have a video of them throwing nail into our parking lot. We already talked to all the surrounding businesses and non of them want them there. Some of them have even started collecting signatures.	External	Anonymous	01/08/2019 12:26 PM

What is being done about this? Their shopping carts with stolen tires are now in city parking spots! They have their trash in the street as well. No one dares to move these because these people having being start fights with neighbors! We are tax paying businesses in this street. This is not right! Please get them out of here ASAP. Your assistance will greatly be appreciated. This homeless encampment has been growing over the past two weeks. The homeless have started fights with neighbors. We hear them yelling and instigating fights. We have female employees and customers entering our business and they do not feel safe. Please help! Thank you!
